# dinoRemote

---

easy | safe | always available

Simply enjoy the best water!

dinoRemote is a cloud-based solution for remote operation and maintenance of dinotec systems for pool owners and pool dealers. dinoRemote is easy to use - like a "normal" website.

The dinoRemote concept guarantees maximum safety for all users due to the use of modern VPN technology.

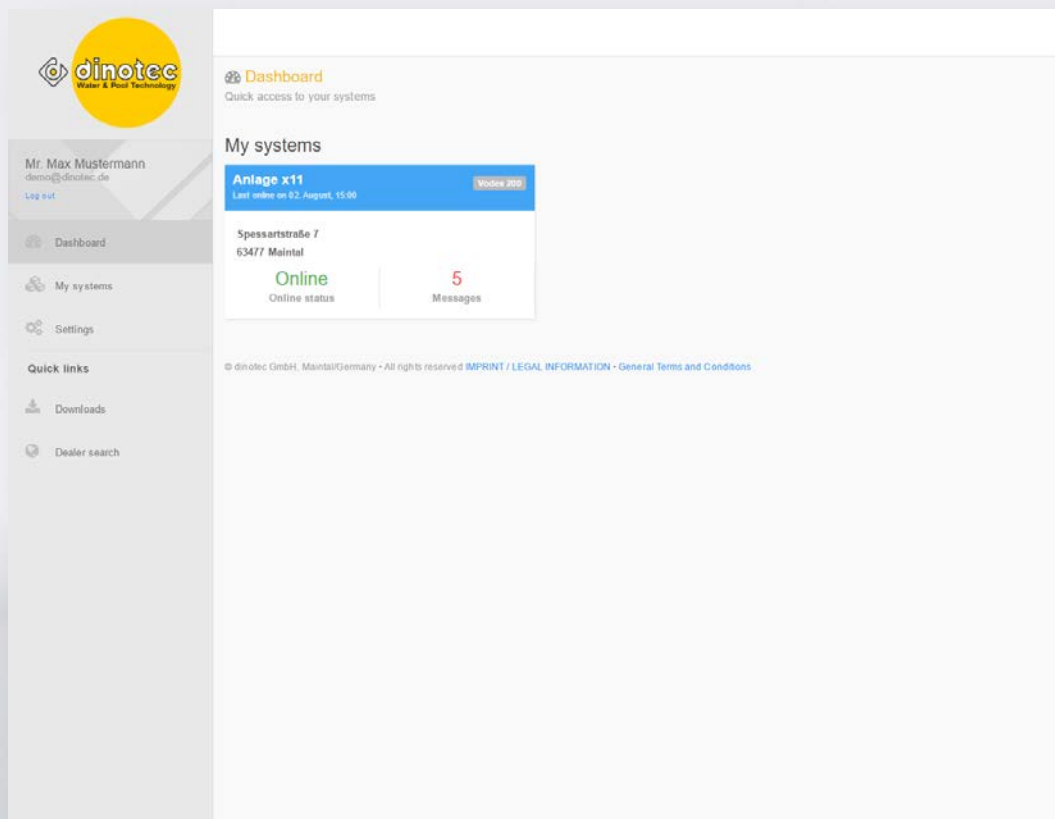

The screenshot displays the dinoRemote web interface. On the left, a navigation menu includes 'Dashboard', 'My systems', 'Settings', 'Quick links', 'Downloads', and 'Dealer search'. The main content area shows a 'Dashboard' with a 'My systems' section containing a card for 'Anlage x11' with status 'Online' and '5 Messages'. A 'News' section on the right features an image of a pool and an article titled 'dinoVISION123 ENG'. Three lines from the text below point to the 'Dashboard', 'My systems', and 'Settings' menu items.

There are three important main menu items in the dinoRemote:

"Dashboard",  
"My systems" and  
"Settings"

## Dashboard

Systems that you want to have quick access to are displayed in the dashboard. In case of private pool owners, one system will be displayed here as a rule, in case of retailers more than one. The dashboard display is a live view. Go to System -> Settings (see below) to configure this view.

The screenshot shows the user interface of the dinotec dashboard. On the left is a sidebar with the dinotec logo, user information for 'Mr. Max Mustermann', and navigation links for Dashboard, My systems, Settings, Quick links, Downloads, and Dealer search. The main content area is titled 'Dashboard' and 'My systems'. It features a card for a system named 'Anlage x11' with a 'Viewing #19' button. The card displays the address 'Spessartstraße 7, 63477 Maintal', an 'Online' status, and '5 Messages'. At the bottom of the main area, there is a copyright notice: '© dinotec GmbH, Maintal/Germany - All rights reserved IMPRINT / LEGAL INFORMATION - General Terms and Conditions'.

## My systems

All systems that you can access are listed here. After clicking on a system, a submenu appears.

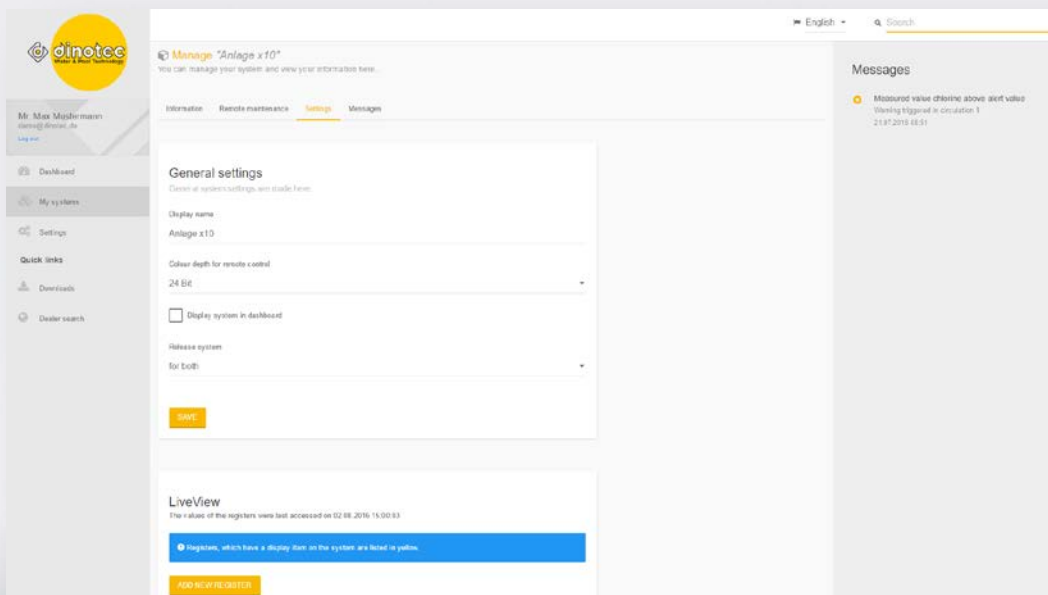

Click **Information** for general information about how the system was created and saved by dinotec. This data can be adapted by dinotec only.

Click **Remote maintenance** for a live screen of your system. You operate your system remotely and change settings in the same way as if standing directly in front of the system.

The screenshot shows the 'Manage "Anlage x10"' interface. On the left is a sidebar with the dinotec logo, user information for 'Mr. Max Mustermann', and navigation options: Dashboard, My systems, Settings, Quick links, Downloads, and Dealer search. The main content area has a title 'Manage "Anlage x10"' and a subtitle 'You can manage your system and view your information here.' Below this are tabs for 'Information', 'Remote maintenance' (which is active), 'Settings', and 'Messages'. The interface is divided into several sections: 'Schwimmbecken' (Swimming pool) with four icons, 'Extern' (External) with three buttons labeled 'Garten', 'Terrasse', and 'Springbrunnen', and 'Abdeckung' (Cover) with three icons. A 'Parameter' section on the right shows 'freies Chlor' at 0.40 mg/l, 'pH-Wert' at 7.25 pH, and 'Temperatur' at 28 °C. At the bottom, there is a blue notification box that reads: 'Please note: Depending on the connection speed, the screen layout/change can take longer than usual. Please allow some time.'

Click **Settings** to set the display name and the colour depth for remote access and whether this system will be displayed in the dashboard. In case of slow connections, we recommend a low colour depth.

Use the button "Add new tab" to set which of your system's values are displayed in live view on the dashboard or in the system information. If you select several values, these will be displayed alternately.

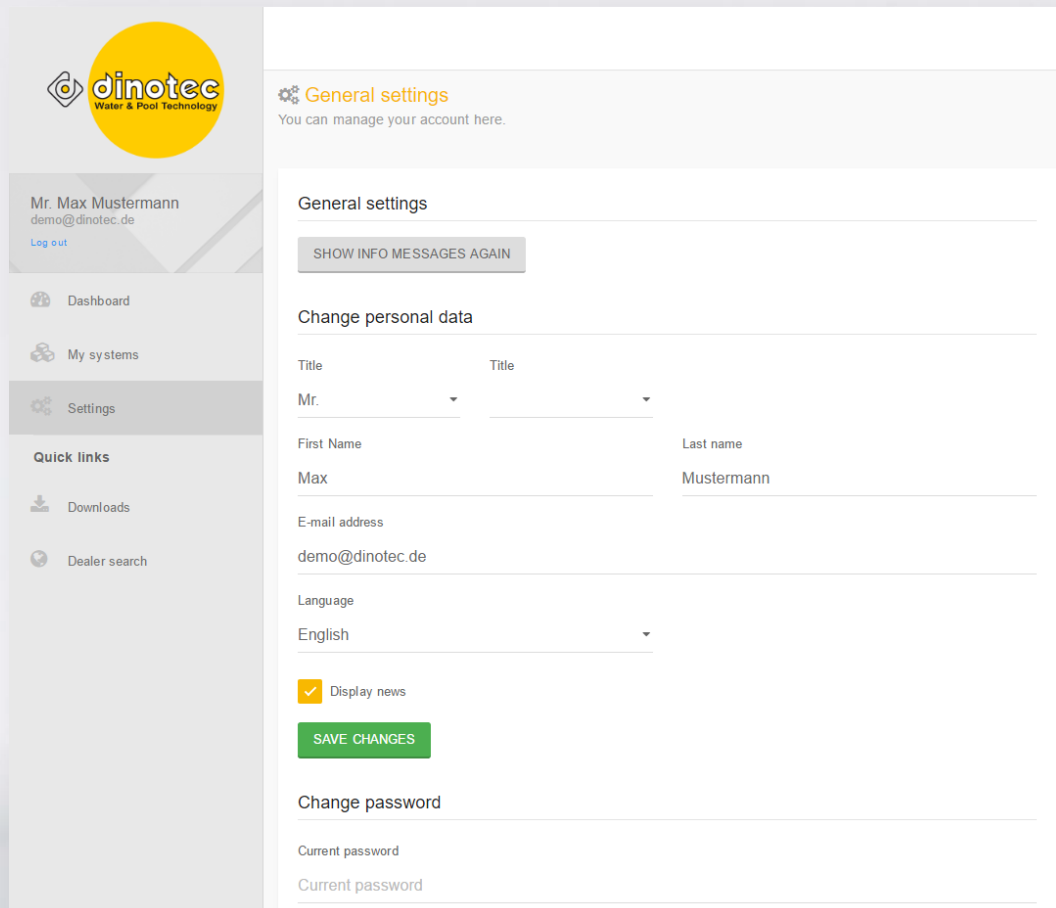

Click **Messages** to select the E-mail address for system messages. Once you have saved an E-mail address, you can individually select which messages you want to receive. Please observe our information and choose only the most important messages to ensure you do not get too many E-mails.

The screenshot shows the 'Manage "Anlage x10"' page in the dinoRemote interface. The left sidebar contains the user profile for Mr. Max Mustermann and navigation options: Dashboard, My systems, Settings, Quick links, Downloads, and Dealer search. The main content area has tabs for Information, Remote maintenance, Settings, and Messages. A blue notification box titled 'E-mail subscriptions' provides instructions and a list of message types to subscribe to: Error filter, Tank below alarm value, Dosing time control, and No flow. Below the notification, the 'E-mail subscriptions' section is partially visible, showing a field for 'Email 1'.

The screenshot shows the 'Message list' page in the dinoRemote interface. The left sidebar is identical to the previous screenshot. The main content area has tabs for Status, Warning, Alarm, and Undefined. Below the tabs, there is a section for 'Circulation 1' with a list of messages to subscribe to. Each message has a checkbox and a red 'Alarm' label. The messages are: Converter failure chlorine, Dosing time control chlorine, Leakage peristaltic pump disinfection, External leakage peristaltic pump disinfection, Excess temperature peristaltic pump disinfection, Measured value chlorine below alarm value, Chlorine tank below alarm value, Sample water deficiency, Measured value chlorine above alarm value, and Flow alarm value upper. At the bottom, there are two buttons: 'SUBSCRIBE TO MESSAGES' (green) and 'CANCEL SUBSCRIPTIONS' (red).

# Settings

You can manage your personal information and your password here.

The screenshot shows the 'General settings' page in the dinotec user interface. On the left is a sidebar with the dinotec logo, user information for 'Mr. Max Mustermann', and navigation links for Dashboard, My systems, Settings (highlighted), Quick links, Downloads, and Dealer search. The main content area is titled 'General settings' and includes a 'SHOW INFO MESSAGES AGAIN' button. Below this is the 'Change personal data' section with fields for Title (Mr.), First Name (Max), Last name (Mustermann), E-mail address (demo@dinotec.de), and Language (English). There is a checked checkbox for 'Display news' and a green 'SAVE CHANGES' button. At the bottom is the 'Change password' section with a 'Current password' label and an input field.
